

## PRODUCT DATA SHEET

Bioworld Technology, Inc.

# Bcl-2 (phospho-T69) polyclonal antibody

Catalog: BS4294 Host: Rabbit Reactivity: Human, Mouse, Rat

### **BackGround:**

Bcl-2 is one among many key regulators of apoptosis which are essential for proper development, tissue homeostasis and protection against foreign pathogens. Human Bcl-2 is a 26 kDa, membraneassociated, anti-apoptotic oncoprotein that can promote cell survival through protein-protein interactions with other Bcl-2 related family members, such as the death suppressors Bcl-xL, Mcl-1, Bcl-w and A1, or the death agonists Bax, Bak, Bik, Bad and BID. The anti-apoptotic function of Bcl-2 can also be regulated through proteolytic processing and phosphorylation. Bcl-2 may promote cell survival by interfering with the activation of the cytochrome c/Apaf-1 pathway through stabilization of the mitochondrial membrane.

#### **Product:**

Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2

## **Molecular Weight:**

~ 26 kDa

### **Swiss-Prot:**

P10415

### **Purification&Purity:**

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

## **Applications:**

IHC: 1:50~1:200

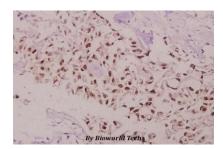

## Storage&Stability:

Store at  $4 \, \mathbb{C}$  short term. Aliquot and store at  $-20 \, \mathbb{C}$  long term. Avoid freeze-thaw cycles.

## **Specificity:**

P-Bcl-2 (T69) polyclonal antibody detects endogenous levels of Bcl-2 protein only when phosphorylated at Thr69...

#### **DATA:**

Immunohistochemistry (IHC) analyzes of p-Bcl-2 (T69) pAb in paraffin-embedded human colorectal carcinoma tissue at 1:50.

## Note:

For research use only, not for use in diagnostic procedure.
