

Glypican 1 polyclonal antibody

Catalog: BS65528 Host: Rabbit Reactivity: Mouse,Rat,Dog,Cow,Horse,Sheep,

BackGround:

Cell surface heparan sulfate proteoglycans are composed of a membrane-associated protein core substituted with a variable number of heparan sulfate chains. Members of the glypican-related integral membrane proteoglycan family (GRIPS) contain a core protein anchored to the cytoplasmic membrane via a glycosyl phosphatidylinositol linkage. These proteins may play a role in the control of cell division and growth regulation. [provided by Ref-Seq, Jul 2008]
