

## TBLR1 monoclonal antibody

Catalog: MB0051

Host: Mouse

Reactivity: Human, Mouse

### Background:

F-box-like protein involved in the recruitment of the ubiquitin/19S proteasome complex to nuclear receptor-regulated transcription units. Plays an essential role in transcription activation mediated by nuclear receptors. Probably acts as integral component of the N-CoR corepressor complex that mediates the recruitment of the 19S proteasome complex, leading to the subsequent proteasomal degradation of N-CoR complex, thereby allowing cofactor exchange, and transcription activation.

### Product:
