

DEDD1 Polyclonal Antibody

Catalog: BS65974	Host: Rabbit	Reactivity: Hu-man, Mouse, Rat, Chicken, Pig, Cow,
------------------	--------------	--

BackGround:

This gene encodes a protein that contains a death effector domain (DED). DED is a protein-protein interaction domain shared by adaptors, regulators and executors of the programmed cell death pathway. Overexpression of this gene was shown to induce weak apoptosis. Upon stimulation, this protein was found to translocate from cytoplasm to nucleus and colocalize with UBTF, a basal factor required for RNA polymerase I transcription, in the nucleus. At least three transcript variants encoding the same protein have been found for this gene.

Product:

0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.

Molecular Weight:

35 kD

Swiss-Prot:

O75618

Purification&Purity:

affinity purified by Protein A

Applications:

WB=1:500-2000

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

DEDD1 Polyclonal Antibody detects endogenous levels of DEDD1 protein.

DATA:

Primary: Anti- DEDD1 at 1/1000 dilution

Note:

For research use only, not for use in diagnostic procedure.
