

TP53AIP1 polyclonal antibody

Catalog: BS75617

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene is specifically expressed in the thymus, and encodes a protein that is localized to the mitochondrion. The expression of this gene is inducible by p53, and it is thought to play an important role in mediating p53-dependent apoptosis. Alternatively spliced transcript variants encoding different isoforms have been described for this gene.
