### Ezrin/Radixin/Moesin polyclonal antibody

Catalog: BS78123 Host: Rabbit Reactivity: Human, Mouse, Rat

#### **BackGround:**

The cytoplasmic peripheral membrane protein encoded by this gene functions as a protein-tyrosine kinase substrate in microvilli. As a member of the ERM protein family, this protein serves as an intermediate between the plasma membrane and the actin cytoskeleton. This protein plays a key role in cell surface structure adhesion, migration and organization, and it has been implicated in various human cancers. A pseudogene located on chromosome 3 has been identified for this gene. Alternatively spliced variants have also been described for this gene. Radixin is a cytoskeletal protein that may be important in linking actin to the plasma membrane. It is highly similar in sequence to both ezrin and moesin. The radixin gene has been localized by fluorescence in situ hybridization to 11q23. A truncated version representing a pseudogene (RDXP2) was assigned to Xp21.3. Another pseudogene that seemed to lack introns (RDXP1) was mapped to 11p by Southern and PCR analyses. Multiple alternatively spliced transcript variants encoding different isoforms have been found for this gene. Moesin (for membrane-organizing extension spike protein) is a member of the ERM family which includes ezrin and radixin. ERM proteins appear to function as cross-linkers between plasma membranes and actin-based cytoskeletons. Moesin is localized to filopodia and other membranous protrusions that are important for cell-cell recognition and signaling and for cell movement.

#### **Product:**

1 mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2

#### **Molecular Weight:**

76KDa/80KDa

#### **Swiss-Prot:**

P15311/P35241/P26038

#### **Purification&Purity:**

#### Bioworld Technology, Inc.

Add: 1660 South Highway 100, Suite 500 St. Louis Park,

MN 55416,USA.

Tel: 6123263284 Fax: 6122933841

# munogen and the purity is > 95% (by SDS-PAGE).

WB,1:500 - 1:2000

**Applications:** 

# Storage & Stability:

Store at  $4\,\mathrm{C}$  short term. Aliquot and store at -20  $\mathrm{C}$  long term. Avoid freeze-thaw cycles.

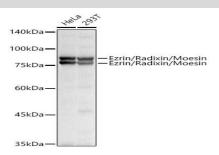

The antibody was affinity-purified from rabbit antiserum

by affinity-chromatography using epitope-specific im-

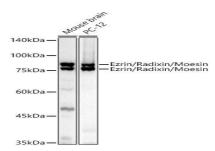

#### **Modification:**

Unmodification

#### **DATA:**

Western blot analysis of extracts of various cell lines, using Ezrin/Radixin/Moesin antibody at 1:1000 dilution.<br/>
