

## Cytokeratin pan (7H5) monoclonal antibody

BackGround:Store at 4 C short term. Aliquot and store at -20 C long term. Avoid freeze-thaw cycles.Ibe protein encoded by this gene is a member of the ker atin gene family. The type II cytokeratins consist of bacis or neutral proteins which are arranged in pairs of hetero- typic keratin chains coexpressed during differentiation of simple and stratified epithelial tissues.Store at 4 C short term.
