PRODUCT SPECIFICATIONS

Product Name	Triiodothyronine(T3-BSA)
Catalog#	NBP0433
Description	Triiodothyronine is a type of thyroid hormone abbreviated T3.
	Triiodothyronine can be divided into Total T3(TT3) and Free
	T3(FT3) due to its different binding state to protein. Serum TT3
	concentration reflects the effect of thyroid on peripheral tissues,
	and is an important index for identifying early hyperthyroidism
	and monitoring recurrent hyperthyroidism. FT3 is not affected by
	thyroid hormone binding protein, and directly reflects thyroid
	function. Its sensitivity and specificity are significantly higher
	than those of TT3.
Source	Synthetic
Formulation	Supplied as a 0.2 μ m filtered solution of PBS, pH7.4
Concentration	Lot specific(±20%)
Application	Immunogen, calibrator, standard or other applications
Shipping	The product is shipped on ice pack. Upon receipt, store it
	immediately at -20°C or lower.
Storage	Short term (up to 7 days) store at 2-8°C. Long term, store at -
	20°C. Avoid multiple freeze/thaw cycles.
